ROAD & DRIVEWAY ACCESS

It is our intent to maintain access to your driveway throughout the project. There will be occasional short term disruptions to access during utility excavation and construction. Residents should expect full access from 7pm to 7am each day. In addition, there will be 7 days after concrete curb and gutter and concrete driveways are constructed when access will be restricted to allow the concrete to cure. Please contact Alex Enyi, to discuss any special considerations or related hardship issues.

LANDSCAPING

Please remove all landscaping and vegetation you want to save in the city right-of-way, from the curb to approximately 5-10 feet back. Contact Alex Enyi if you would like to know the removal limits and/or impacts adjacent to your property.

GARBAGE CONTAINERS

Please have your container curbside before 7a.m. regardless of the condition of your street. Occasionally the contractor will move your garbage container on pickup day to help facilitate garbage collection. Please put your address on the top of your container to ensure the containers get returned to the correct property. Your garbage will be picked up on the same day as normally scheduled.

SPRINKLERS & DOG FENCES

The city right-of-way extends approximately 15 feet from back of the existing curb and gutter. Please mark any underground pet fencing and mark the portions of your sprinkler system within the city right-of-way as soon as possible. Contact Alex if any fence or sprinkler is damaged during construction.
