Criteria #1 *The original zoning ordinance is in error.*

Finding #1 *The zoning ordinance is in error. The current zoning of the property does not match the guiding of the current comprehensive plan, which guides these properties for Parks and Open Space development.*

Criteria #2 **Significant changes in community goals and policies have taken place.**

Finding #2 *Significant changes in community goals and policies that concern these properties have taken place. It is now a community goal to have dedicated parks and open spaces which are preserved for park development.*

Criteria #3 **Significant changes in development patterns have occurred.**

Finding #3 *Significant changes in development patterns have occurred. Previously parkland and open spaces were zoned the same as adjacent properties. As the City continues to grow and new parks are added with new development it is preferred to have a clearer means of identifying these lands and uses.*

Criteria #4 **The Comprehensive Plan requires a different provision.**

Finding #4 *The proposed guiding is consistent with the approved 2040 Comprehensive Plan that guides these areas for Parks and Open Spaces. These lands are currently zoned either commercial or residential which are not appropriate uses for these areas and rezoning will preserve*
