**AUGUST  
2021**

### PROJECT UPDATE AND SCHEDULE

*This is a general schedule and is subject to change due to weather delays or unforeseen issues during construction.*

The trail's bituminous base course has been paved and concrete pedestrian ramps have been installed. Touch up grading around the trail and topsoil placing will occur this week. Turf restoration will follow shortly after all topsoil is placed. The trail's bituminous wear course will be installed upon completion of restoration.

The project is required to be complete by the end of September 2021.

### SPRINKLERS & DOG FENCES

It is not anticipated that irrigation systems or underground fences will be impacted. However, for those that will have trees planted along their property lines, please mark the portions of your sprinkler system and/or underground fence adjacent to the project area. The contractor will make the best attempt to protect sprinkler systems and dog fences but will be responsible for fixing them if damaged during construction.
