

Use of Force

300.1 PURPOSE AND SCOPE

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this department is expected to use these guidelines to make such decisions in a professional, impartial, and reasonable manner (Minn. Stat. § 626.8452).

In addition to those methods, techniques, and tools set forth below, the guidelines for the reasonable application of force contained in this policy shall apply to all policies addressing the potential use of force, including but not limited to the Control Devices and Conducted Energy Device policies.

300.1.1 DEFINITIONS

Definitions related to this policy include:

Authorized Device - A device an officer has received permission from the agency to carry and use in the discharge of that officer's duties, and for which the officer has:

- (a) Obtained training in the technical, mechanical and physical aspects of the device; and
- (b) Developed a knowledge and understanding of the law, rules and regulations regarding the use of such a device.

Bodily harm - Physical pain or injury.

Deadly force - Force used by an officer that the officer knows, or reasonably should know, creates a substantial risk of causing death or great bodily harm. The intentional discharge of a firearm in the direction of another person, or at a vehicle in which another person is believed to be, constitutes deadly force.

De-Escalation - Taking action or communicating verbally or non-verbally during a potential force encounter in an attempt to stabilize the situation and reduce the immediacy of the threat so that more time, options, and resources can be called upon to resolve the situation without the use of force or with a reduction in the force necessary. De-escalation may include the use of such techniques as command presence, advisement, warnings, verbal persuasion, and tactical repositioning.

Feasible - Reasonably capable of being done or carried out under the circumstances to successfully achieve the arrest or lawful objective without increasing risk to the officer or another person.

Force - The application of physical techniques or tactics, chemical agents, or weapons to another person. It is not a use of force when a person allows him/herself to be searched, escorted, handcuffed, or restrained.

Shakopee Police Department

Policy Manual

Use of Force

Great bodily harm - Bodily injury which creates a high probability of death, or which causes serious, permanent disfigurement, or which causes a permanent or protracted loss or impairment of the function of any bodily member or organ or other serious bodily harm.

Imminent - Ready to take place; impending. Note that imminent does not mean immediate or instantaneous.

Other Than Deadly Force - Force used by an officer that does not have the purpose of causing, nor create a substantial risk of causing, death or great bodily harm.

Totality of the circumstances - All facts and circumstances known to the officer at the time, taken as a whole, including the conduct of the officer and the subject leading up to the use of force.

300.2 POLICY

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

It is the policy of this law enforcement agency to ensure officers respect the sanctity of human life when making decisions regarding use of force. Sworn law enforcement officers have been granted the extraordinary authority to use force when necessary to accomplish lawful ends. Officers shall treat everyone with dignity and without prejudice and use only the force that is objectively reasonable to effectively bring an incident under control, while protecting the safety of others and the officer.

Officers should exercise special care when interacting with individuals with known physical, mental health, developmental, or intellectual disabilities as an individual's disability may affect the individual's ability to understand or comply with commands from peace officers.

300.2.1 DUTY TO INTERCEDE AND REPORT

Regardless of tenure or rank, any officer present and observing another law enforcement officer or a member using force that is clearly beyond that which is objectively reasonable under the circumstances shall, when in a position to do so, intercede to prevent the use of unreasonable force (Minn. Stat. § 626.8452; Minn. Stat. § 626.8475).

Any officer who observes another law enforcement officer or a member use force that is potentially beyond that which is objectively reasonable under the circumstances shall report these observations to a supervisor as soon as feasible (Minn. Stat. § 626.8452; Minn. Stat. § 626.8475).

300.2.2 ADDITIONAL REQUIREMENTS

An officer reporting a use of force by another law enforcement officer or member pursuant to this policy shall also make the report in writing to the Chief of Police within 24 hours (Minn. Stat. § 626.8475).

Shakopee Police Department

Policy Manual

Use of Force

300.2.3 PERSPECTIVE

When observing or reporting force used by a law enforcement officer, each officer should take into account the totality of the circumstances and the possibility that other law enforcement officers may have additional information regarding the threat posed by the subject.

300.3 USE OF FORCE

Officers shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

The decision by an officer to use force or deadly force shall be evaluated from the perspective of a reasonable officer in the same situation, based on the totality of the circumstances known to or perceived by the officer at the time, rather than with the benefit of hindsight, and that the totality of the circumstances shall account for occasions when officers may be forced to make quick judgments about using such force.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident.

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the tools, weapons, or methods provided by this department. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.

While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

300.3.1 ALTERNATIVE TACTICS - DE-ESCALATION

When circumstances reasonably permit, officers should use non-violent strategies and techniques to decrease the intensity of a situation, improve decision-making, improve communication, reduce the need for force, and increase voluntary compliance (e.g., summoning additional resources, formulating a plan, attempting verbal persuasion, tactical repositioning).

An officer shall use de-escalation techniques and other alternatives to higher levels of force consistent with their training whenever possible and appropriate before resorting to force and to reduce the need for force.

Whenever possible and when such delay will not compromise the safety of another or the officer and will not result in the destruction of evidence, escape of a suspect, or commission of a crime, an officer shall allow an individual time and opportunity to submit to verbal commands before force is used.

Shakopee Police Department

Policy Manual

Use of Force

300.3.2 USE OF FORCE TO EFFECT AN ARREST

An officer may use reasonable force (Minn. Stat. § 609.06 and Minn. Stat. § 629.33):

- (a) In effecting a lawful arrest.
- (b) In the execution of a legal process.
- (c) In enforcing an order of the court.
- (d) In executing any other duty imposed by law.
- (e) In preventing the escape, or to retake following the escape, of a person lawfully held on a charge or conviction of a crime.
- (f) In restraining a person with a mental illness or a person with a developmental disability from self-injury or injury to another.
- (g) In self-defense or defense of another.

An officer who makes or attempts to make an arrest need not retreat or desist from his/her efforts by reason of resistance or threatened resistance of the person being arrested; nor shall such officer be deemed the aggressor or lose his/her right to self-defense by the use of reasonable force to effect the arrest or to prevent escape or to overcome resistance.

300.3.3 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE

When determining whether to apply force and evaluating whether an officer has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit. These factors include but are not limited to:

- (a) Immediacy and severity of the threat to officers or others.
- (b) The conduct of the individual being confronted, as reasonably perceived by the officer at the time.
- (c) Officer/subject factors (e.g., age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of officers available vs. subjects).
- (d) The effects of suspected drug or alcohol use.
- (e) The individual's mental state or capacity.
- (f) The individual's ability to understand and comply with officer commands.
- (g) Proximity of weapons or dangerous improvised devices.
- (h) The degree to which the individual has been effectively restrained and his/her ability to resist despite being restrained.
- (i) The availability of other reasonable and feasible options and their possible effectiveness (Minn. Stat. § 626.8452).
- (j) Seriousness of the suspected offense or reason for contact with the individual.
- (k) Training and experience of the officer.
- (l) Potential for injury to officers, suspects, and others.

Shakopee Police Department

Policy Manual

Use of Force

- (m) Whether the individual appears to be resisting, attempting to evade arrest by flight, or is attacking the officer.
- (n) The risk and reasonably foreseeable consequences of escape.
- (o) The apparent need for immediate control of the individual or a prompt resolution of the situation.
- (p) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.
- (q) Prior contacts with the individual or awareness of any propensity for violence.
- (r) Any other exigent circumstances.

300.3.4 PAIN COMPLIANCE TECHNIQUES

Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Officers may only apply those pain compliance techniques for which they have successfully completed department-approved training. Officers utilizing any pain compliance technique should consider:

- (a) The degree to which the application of the technique may be controlled given the level of resistance.
- (b) Whether the individual can comply with the direction or orders of the officer.
- (c) Whether the individual has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the officer determines that compliance has been achieved.

300.3.5 STATE RESTRICTIONS ON THE USE OF OTHER RESTRAINTS

Officers may not use any of the following restraints unless the use of deadly force is authorized (Minn. Stat. § 609.06; Minn. Stat. § 609.066):

- (a) A chokehold. For purposes of this policy, a chokehold only refers to the method of applying sufficient pressure to an individual to make breathing difficult or impossible, and includes but is not limited to any pressure to the neck, throat, or windpipe that may prevent or hinder breathing, or reduce intake of air.
- (b) Tying all of an individual's limbs together behind the person's back to render the person immobile.
- (c) Securing an individual in any way that results in transporting the person face down in a vehicle.

300.3.6 USE OF FORCE TO SEIZE EVIDENCE

In general, officers may use reasonable force to lawfully seize evidence and to prevent the destruction of evidence. However, officers are discouraged from using force solely to prevent a person from swallowing evidence or contraband. In the instance when force is used, officers should not intentionally use any technique that restricts blood flow to the head, restricts respiration or which creates a reasonable likelihood that blood flow to the head or respiration would be

Shakopee Police Department

Policy Manual

Use of Force

restricted. Officers are encouraged to use techniques and methods taught by the Shakopee Police Department for this specific purpose.

300.4 DEADLY FORCE APPLICATIONS

When reasonable, the officer shall, prior to the use of deadly force, make efforts to identify themselves as a peace officer and to warn that deadly force may be used, unless the officer has objectively reasonable grounds to believe the person is aware of those facts.

Use of deadly force is justified only if an objectively reasonable officer would believe, based on the totality of the circumstances known to the officer at the time and without the benefit of hindsight, that such force is necessary (Minn. Stat. § 609.066):

- (a) To protect the officer or another from death or great bodily harm.
- (b) To effect the arrest or capture, or prevent the escape, of an individual whom the officer knows or has reasonable grounds to believe has committed or attempted to commit a felony and the officer reasonably believes that the person will cause death or great bodily harm to another person unless immediately apprehended.

In both scenarios, the use of deadly force is only authorized provided that the threat (Minn. Stat. § 609.066):

- Can be articulated with specificity.
- Is reasonably likely to occur absent action by the officer.
- Must be addressed through the use of deadly force without unreasonable delay.

An officer shall not use deadly force against an individual based on the danger the individual poses to self unless the use of deadly force is justified (Minn. Stat. § 609.066).

Additionally, an officer should not use deadly force against a person whose actions are a threat solely to property.

300.4.1 MOVING VEHICLES

Shots fired at or from a moving vehicle are rarely effective and involve considerations and risks in addition to the justification for the use of deadly force.

When feasible, officers should take reasonable steps to move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants.

An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the imminent threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others.

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

300.5 REPORTING THE USE OF FORCE

Any use of force by a member of this department shall be documented promptly, completely, and accurately in an appropriate report, depending on the nature of the incident. The officer should

Shakopee Police Department

Policy Manual

Use of Force

articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances.

To collect data for purposes of training, resource allocation, analysis, and related purposes, the Department may require the completion of additional report forms, as specified in department policy, procedure, or law. See the Report Preparation Policy for additional circumstances that may require documentation.

300.5.1 NOTIFICATIONS TO SUPERVISORS

Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

- (a) The application caused a visible injury.
- (b) The individual subjected to the force complained of injury or continuing pain.
- (c) The officer has drawn a department authorized firearm and points it at an individual.
- (d) Any application of the Conducted Energy Device (CED) or department issued control device.
- (e) Any application of a restraint device other than handcuffs, shackles, or belly chains.
- (f) The individual subjected to the force was rendered unconscious.
- (g) An individual was struck or kicked.
- (h) An individual alleges unreasonable force was used or that any of the above has occurred.

300.5.2 STATE REPORTING REQUIREMENTS

The Chief of Police shall provide for the filing of a report with the Bureau of Criminal Apprehension (BCA) on a monthly basis and in the form required by BCA (Minn. Stat. § 626.5534).

There may be additional reporting requirements regarding misconduct (see the Standards of Conduct Policy) (Minn. Stat. § 626.8457).

300.6 MEDICAL CONSIDERATIONS

Once it is reasonably safe to do so, medical assistance shall be obtained for any person:

- (a) Who exhibits signs of physical distress.
- (b) Has sustained visible injury.
- (c) Expresses a complaint of injury.
- (d) Continuing pain.
- (e) Was rendered unconscious.

Any individual exhibiting signs of physical distress, or placed on their stomach after an encounter should be continuously monitored until the individual can be medically assessed. Individuals should not be placed on their stomachs for an extended period, as this could impair their ability to breathe.

Shakopee Police Department

Policy Manual

Use of Force

Based upon the officer's initial assessment of the nature and extent of the individual's injuries, medical assistance may consist of examination by an emergency medical services provider or medical personnel at a hospital or jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another officer and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor or, if the on-scene supervisor is not available, the primary handling officer shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Individuals who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics, and imperviousness to pain, or who require a protracted (prolonged) physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Officers who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away.

See the Medical Aid and Response Policy for additional guidelines.

300.7 SUPERVISOR RESPONSIBILITIES

A supervisor should respond to a reported application of force resulting in visible injury, if reasonably available. When a supervisor is able to respond to an incident in which there has been a reported application of force, the supervisor is expected to:

- (a) Obtain the basic facts from the involved officers. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
- (b) Ensure that any injured parties are examined and treated.
- (c) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas.
- (d) Identify any witnesses not already included in related reports.
- (e) Review and approve all related reports.
- (f) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy noncompliance or if for any reason further investigation may be appropriate.

Shakopee Police Department

Policy Manual

Use of Force

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

300.8 TRAINING

Officers shall receive training on this policy, including the learning objectives as provided by the Board of Peace Officer Standards and Training (POST), and demonstrate their knowledge and understanding at least annually (Minn. Stat. § 626.8452, Subd. 3).

Subject to available resources, officers should receive periodic training on guidelines regarding vulnerable populations, including but not limited to children, elderly, pregnant persons, and individuals with physical, mental, or intellectual disabilities.

300.8.1 STATE-SPECIFIC TRAINING REQUIREMENTS

Warrior-style training, as defined in Minn. Stat. § 626.8434, whether provided directly by the Department or through a third party, is prohibited (Minn. Stat. § 626.8434).

300.9 USE OF FORCE ANALYSIS

At least annually, the Operations Division Commander should prepare an analysis report on use of force incidents. The report should be submitted to the Chief of Police. The report should not contain the names of officers, suspects, or case numbers, and should include:

- (a) The identification of any trends in the use of force by members.
- (b) Training needs recommendations.
- (c) Equipment needs recommendations.
- (d) Policy revision recommendations.

300.10 POLICY REVIEW

The Chief of Police or the authorized designee should annually review and update this policy to reflect developing practices and procedures. Any questions or concerns should be addressed to the immediate supervisor for clarification.
