CONTRACT

Shakopee City Council will award a contract for the 2024 Bituminous Pavement Rehabilitation to the low bidder, Bituminous Roadways Inc., of Mendota Heights, MN on April 16th, 2024. There are no direct assessments to property owners on this project.

PROJECT LOCATION

See back of newsletter for project locations.

PROJECT SCOPE

The project consists of full depth pavement patching and crack sealing to address areas of pavement failure. Upon completion of patching and crack sealing, a chip seal coat will be applied to the streets. Two separate contractors will be performing the work. The contractor responsible for patching and crack sealing anticipates beginning work near the end of April completing their work by the end of May. The seal coat contractor anticipates beginning their work between July and August. The actual seal coat work will only take a couple days to complete.

The contractor will be posting temporary signs in the boulevards notifying residents of any parking restrictions during construction. Please use caution and patience while driving in the construction zone and comply with all parking restrictions and temporary traffic control.

The project is anticipated to be complete by late August 2024.

ROAD & DRIVEWAY ACCESS

It is our intent to maintain access to the driveways throughout the project. There will be occasional short-term disruptions due to patching and seal coat application operations.

WE NEED YOUR HELP!

When the contractor is working on your street, please be patient and for everyone's safety, please follow the directions given by the workers. Also, please avoid driving on the fresh blacktop until it has been rolled and avoid parking on it until it has had a chance to cool.
