**JUNE
2024**

PROJECT SCOPE

The project consists of full depth pavement reclamation of the existing bituminous trails and paving a new bituminous surface over the reclaimed aggregate base. There are no property assessments with this project.

SCHEDULE UPDATE

The city sent out a newsletter late in the week between May 29-June 1 with a construction update saying the contractor for this project was anticipating a start date the week of June 3rd. Unfortunately, there was a mix up between this area and other areas and the Stonebrooke Drive area will not have construction start the week of June 3rd. The contractor has not sent a schedule update to the city for when this work will start. The city will send out another newsletter in the near future for project updates. We are sorry for any inconvenience.

If you have any questions, please contact Alex Enyi; 952-240-9218, aenyi@shakopeemn.gov

IMPACTS TO YOUR YARD

The area of your yard immediately adjacent to the trail will be disturbed to allow for the reconstruction of the trail. There may be impacts to shrubs or plants that are adjacent (within 1-2 feet) to the trail. The city recommends transplanting any shrubs or plants until the project is complete. The city will restore the turf and/or landscape adjacent to the trail but will not replant any shrubs or plants removed during construction.

Please mark the portions of your sprinkler system or underground fence adjacent to existing trail as soon as possible. The contractor will be responsible for protecting or repairing irrigation systems and any underground fences damaged from construction.
